

mozzie stoppa™ EASY-CLEAN

Product: Mozzie Stoppa Easy Clean 90mm

Code: TATO27

Maintenance Friendly Mozzie Stoppa Screen

Product Description

Mozzie Stoppa Easy Clean™ is a maintenance friendly Mozzie Stoppa Screen which incorporates a spring hinged 0.955mm aperture stainless steel screen moulded into a 90mm male and female PVC fitting.

Feature & Benefits

- Easy cleaning - just unlatch then brush or hose off
- Improve tank water, keep mosquitoes, insects and vermin out
- Allow tank water to breathe
- Can be fitted to all 90mm tank overflow outlets and 90mm pipe
- Incorporates a spring hinged 0.955mm aperture stainless steel screen
- Ideal for new installations or upgrade an existing Mozzie Stoppa
- 90mm male and female PVC fitting

Installation

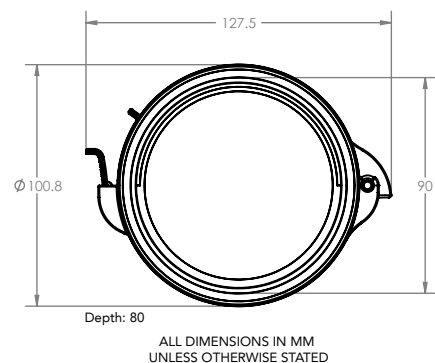

New Installation

When selecting a location for the Mozzie Stoppa Easy Clean™ consideration must be given to maintenance. The Mozzie Stoppa Easy Clean™ must be in a position for easy access for cleaning of the stainless steel mozzie screen.

1. Ensuring the hinged screen is facing up, glue the fitting into the overflow outlet.

Upgrading an Existing Mozzie Stoppa (if glued in place)

1. Cut pipe after existing Mozzie Stoppa - leave enough space to install Mozzie Stoppa Easy Clean (approx. 30mm)
2. Remove the existing Mozzie Stoppa mesh screen by cutting it out
3. Glue in place the Mozzie Stoppa Easy Clean, ensuring the hinged screen is facing up.

Maintenance

1. Unlatch, then brush or hose off the screen.
2. Ensure to relatch the screen firmly when finished for protection against mosquitoes, insects and other pests.
